✓ Compatible

(*): To remove it from quarantine and install it we must follow the following steps.

- 1- Access Panda Dome and click on 'view summary'.
- 2- When we are inside the summary we click on 'view report'.
- 3- Once inside the report we must go to 'Quarantine'.
- 4- Finally, once inside the quarantine we must click on 'recover file' and when the window of unblocking element appears we must click on 'Yes, I want to continue'.
